

The ASFA's primary concern is not only for the safety of the hounds competing in ASFA Field Trials but the safety and well-being of the owners and handlers.

We are in the midst of unprecedented and uncertain times with the spread of the Covid-19 virus. Taking all this into consideration, the Board has decided to not require clubs to hold an ASFA field trial in 2020 in order to maintain their status with the ASFA.

Article II Membership

Section 4. Termination of Membership. *Club membership may be terminated: ...*

c) by inactivity. Any member club which fails to hold an ASFA sanctioned lure field trial during a period of two consecutive calendar years shall automatically revert to affiliate status. National clubs, as defined by the ASFA are exempt from this provision.

Each club can individually decide whether they wish to hold their field trials. Although for everyone's health and safety and until the United States has been able to get a handle on the spread of the virus, we strongly suggest clubs consider cancelling scheduled ASFA field trials.

Be safe, play with your dogs ... Tally Ho!
